

## No Party Preference/Crossover Voting Options

**Q: What is Crossover Voting?**

A: Voters that are not registered with a qualified political party may request a Democratic, American Independent or Libertarian party presidential ballot. These are the only parties who have adopted a rule permitting crossover voting for the June 7, 2016 Presidential Primary Election.

**Q: Can I crossover to vote on another party's ballot if I'm already registered with a qualified political party?**

A: No. You cannot crossover and choose to vote on another party's ballot.

**Q: How do I crossover to another party if I vote by mail?**

A: Return the crossover voter postcard with the party selected whose ballot you wish to receive.

**Q: I'm registered with a qualified party, may I request for another party's ballot?**

A: No. You cannot crossover if you are registered with a qualified party. In order to vote on another party's ballot you will need to re-register with that party by May 23, 2016.

**Q: What if I don't request for a crossover ballot?**

A: You will be given a No Party Preference (nonpartisan) ballot. It will only contain candidates running for Voter Nominated and Nonpartisan offices along with measures that you are eligible to vote for, (See Option 4 below.)
